### Juan Cristián Orrego-Benavente (January 31, 1944 Santiago, Chile - December 12, 2018 San Salvador, El Salvador)<sup>1</sup>

Jorge A. Santiago-Blay<sup>2</sup>

In a recent obituary of Dr. Cristián Orrego (Santiago-Blay et al. 2019), I rendered one of Dr. Orrego's coauthored papers (King and Orrego 1981) erroneously. As I am sure Cristián would have appreciated, the correct rendition of that paper's bibliographic information follows along with a line drawing of him in his mid thirties.

King, J. and C. Orrego. 1981. Biotechnology. pp. 1-11. In, Parker, S. P. (Editor in Chief). *McGraw-Hill Yearbook of Science and Technology. 1980 Review. 1981 Preview*. McGraw-Hill. New York, NY, USA. 433 pp.

#### Acknowledgments

Dr. Adam Hadhazy (McGraw-Hill Education, New York, NY, USA) granted permission to reproduce the image of Dr. Orrego from King and Orrego (1981).
